</table>

Students enrolling in collegiate schools of nursing must meet college entrance requirements.

Aims and Objectives

FOUR-YEAR DEGREE PROGRAM

1. To lay a firm foundation in the principles of Catholic dogma and scholastic philosophy and to impart a realization of the importance of spiritual considerations in the care of the sick and dying;
2. To prepare young women by means of a broad intellectual, cultural, and professional experience, based upon the philosophy of Catholic education, to practice good bedside nursing, to hold first level positions in institutions, public health agencies; and to advance by additional preparation to teaching, supervisory, and administrative activities;
3. To develop the realization of her duties and responsibilities as a member of a democratic society and the ability to assume her share of responsibility and leadership within that society; to assist students in acquiring those ideals, attitudes and habits which will enable them to make satisfactory adjustments to life and to encourage personal interest and participation in the organizational work of advancing the activities, aims, and professional status of nursing; and
4. To give the student a basic course in the theory and practice of nursing which will enable her to develop a knowledge of the principles of good nursing and methods of assisting the sick to attain and maintain spiritual, mental, and physical health.

THREE-YEAR DIPLOMA PROGRAM

1. To lay a firm foundation in the principles of Catholic dogma and scholastic philosophy and to impart a realization of the importance of spiritual considerations in the care of the sick and dying;
2. To equip students for independence, effective thinking and responsible action, whereby they will be able to direct their lives as individuals and as useful members of a modern, democratic society;
3. To impart a knowledge of the principles of good nursing and to give experience in assisting the sick to attain and maintain physical and mental health;
4. To encourage a conscientious regard for wholesome physical and mental habits; thereby equipping its students to assume leadership in the guidance of others in matters related to healthful living and to take their place in life with the dignity and graciousness of the truly cultured Catholic woman and nurse; and
5. To encourage the young graduate to establish herself professionally.
